HEALTH DECLARATION FOR INCOMING MARES

I certify that the mare (Name _____) has not shown any signs of an infectious disease or been in contact with any other horse showing signs of infectious disease for the last 3 months.

I certify that to my knowledge the mare has/has not (Delete as appropriate) ever been infected with strangles (*streptococcus equi*).

The mare has been kept in a dealer yard/livery yard/private yard (Delete as appropriate) (name and location of yard _____) for at least the last 3 months or since (Date _____).

The mare has been vaccinated for influenza and tetanus and her vaccinations are up to date.

(*delete as applicable)

*I certify that my mare does not represent a significant risk of bringing infectious disease onto your premises. If I have any concerns not mentioned here, I will discuss them with you prior to bringing the mare.

Or/ if identified as potential high risk mare

*I authorise Dukes Equine Vets Ltd to carry out an endoscopic exam of the guttural pouches under sedation and submit samples for testing for strangles from my mare. I accept that my mare will be kept in isolation and not enter the breeding program until test results obtained. I will pay the fees for this examination and lab fees and all other costs associated with quarantine etc.
